

ELEPHANT HUNT FOR ROOSEVELT

Crown Prince of Abyssinia Promises Great Sport If Visit Is Arranged.

Berlin, Sept. 3.—Lidj Jassu, the crown prince of Abyssinia, has invited Theodore Roosevelt to a great elephant hunt, promising to hunt up a white elephant for him to kill, and otherwise to arrange a splendid sporting program.

This news has been brought into Berlin by Adolf Mayer, a kinsman of King Menelik of Abyssinia, who has arrived here with a commission from the Abyssinian government to purchase supplies.

King Menelik sent an invitation to Mr. Roosevelt at Washington to be his guest, but Mr. Roosevelt declined, explaining that, as he had refused the invitations of several European sovereigns, he could not make an exception of King Menelik, however much he might desire to do so. It was then arranged that the crown prince should invite Mr. Roosevelt unofficially.

Before Mayer left Abyssinia a commission had been sent to hand this invitation to Mr. Roosevelt, wherever it could find him, and King Menelik was hopeful that the former president of the United States would accept the invitation.

Nairobi, British East Africa, Sept. 3.—Alden Loring and Major Mearns, members of the Roosevelt expedition, are about to undertake an extended trip through Kenya province. Mr. Loring started today and will be followed by Major Mearns tomorrow. They will return here Nov. 1 to join Colonel Roosevelt.

A total of 2,500 specimens were shipped yesterday to the Smithsonian institution. They include birds, mammals, snakes and plants.

SHINGLE WEAVERS THREATEN STRIKE

Aberdeen, Wash., Sept. 3.—The controversy between the shingle weavers and the manufacturers of Chelan county has reached an acute stage and, unless an amicable adjustment is reached at a meeting to take place, a strike is probable. Should one be declared, it appears probable that the shingle industry of the entire coast would become involved, with the possible result that the manufacturers would take a stand for an "open shop" in all plants.

The weavers demand payment of ten cents a thousand for shingles, an increase of one and one-half cents over the present schedule. The manufacturers assert that the present market price for shingles does not warrant the increase.

WEATHER BUREAU CHIEF DISPLAYS MUCH PLUCK

Washington, Sept. 3.—While alighting from a car today, Prof. Willis L. Moore, chief of the weather bureau, fell and sustained a broken arm. He was conveyed to the office of a physician, where the injured member was set, and then, much to the surprise of his friends, he proceeded to his own office, where he performed his customary duties.

MILLIONAIRE PRISONER WORKS IN JUTE MILL

San Rafael, Sept. 3.—William P. Bradbury, the Corte Madera millionaire, who began yesterday a year's incarceration in the penitentiary at San Quentin, for perjury, commenced work today in the jute mill at the institution, after an attempt to escape this morning on the plea of illness. He slept last night in a cell room with 200 other convicts, including murderers and other desperate criminals.

When assigned the task of filling cans with waste jute at the mill today, Bradbury complained that he was not able to do the work, because he could not stoop even long enough to tie his shoes, but as this is one of the lightest employments in the factory, the authorities refused to rescind the order.

KIDNAPING CASE SETTLED

Incubator Baby Is to Be Given Into Charge of the Mother, Mrs. Bleakley.

Topeka, Kan., Sept. 3.—Marian Bleakley, the incubator baby, will be turned over to its mother, Mrs. Charlotte Bleakley, when Mrs. Stella Barclay, who kidnaped the child, returns from Buffalo to Kansas City. Arrangements have been completed for discharging the habeas corpus case. The attorneys all admit privately that such an arrangement has been made.

MUCH INTEREST IN RADIUM

Letters Received From Several States in Reply to Denver Man's Offer.

Denver, Sept. 3.—Interest in the production of radium in a few days has exceeded the most sanguine expectations of Thomas F. Walsh, who recently contributed \$5,000 to the Colorado School of Mines, for the purpose of testing free of cost all samples of pitch blende sent to the school. Mr. Walsh, in a statement issued today, expressed his gratitude to the Associated Press and newspapers for the publicity given this effort to arouse interest in the production of radium. Regarding pitch blende, Mr. Walsh says: "So far pitch blende has been found in gold and silver sulphide veins. It looks like magnetite iron and has great specific gravity, with the lustrous black of gun metal."

Referring to the demand for radium, he says: "Letters are pouring in, not only from our own state, but from all the mining states of the west, asking for information and specimens. As it may not be possible to send specimens to all applicants, postmasters or interested parties in Colorado will be supplied first. After that our sister states and territories will be supplied as far as possible."

SAVE DUTIES ON RECENT IMPORTS

Many Articles Brought Into Country Before Payne Bill Was Signed.

Washington, Sept. 3.—During the few months prior to Aug. 5, when President Taft signed the new tariff law, exporters to this country almost doubled their shipments on many articles on which a rise in duty was anticipated, under the Payne bill.

The imports of principal articles for the seven months ending July, 1909, is shown in detail in a statement issued by the bureau of statistics, embracing also comparisons with figures of the corresponding months of last year. The largest importations which were rushed into profit by the operation of the old Dingley law comprised hides, raw silk, unmanufactured wool, cotton laces, linens, crude India rubber and copper.

The value of the principal articles imported during the seven months period on which figures were compiled were: Sugar, \$38,000,000; hides and skins, \$32,800,000; coffee, \$4,500,000; raw silk, \$12,300,000; crude India rubber, \$3,800,000; unmanufactured wool, \$35,100,000; cotton laces, \$2,000,000; diamonds, \$5,500,000; copper, pigs, bars, etc., \$17,300,000; furs, \$6,400,000; silk laces, \$3,500,000.

Chief among the increases over the same period last year were: Hides and skins, \$3,000,000; unmanufactured wool, \$2,500,000; diamonds, \$3,000,000; India rubber, \$17,000,000; raw silk, \$4,000,000; cotton laces, \$7,000,000.

The GOOSE GIRL
A NEW NOVEL BY HAROLD MAC GRATH
AUTHOR OF The MAN ON THE BOX The LURE OF THE MASK ETC.

MacGrath has never written so engaging a romance as his new novel, "The Goose Girl."

Charm is the word that fits this story. Charm of place—the fragrant, sunny vineyards of the Rhine country. Charm of plot—all our castles in the air come true. Charm of characterization—men and women whom we love to know and know to love.

Charm of style—simple, clear, poetic and humorous. Charm of incident, adventure and outcome. It glows with kindness, good cheer and love. It's impossible to read "THE GOOSE GIRL," and keep the sunlight from your soul. A story of many tangled threads; of many characters that come and go and grow as in life, and "bend each wandering step to this one end; that some day out of darkness they shall meet and read life's meaning in each other's eyes."

The cover design of the "Goose Girl" in four colors and gold is painted by Harrison Fisher.
